METHODOLOGY

REPORTING PROCESS

Every month, the American Pecan Council publishes an industry position report, which contains the most recent pecan trade statistics. These reports provide the latest shipment, inventory, export, import, and net open position. All handlers of pecans within the area of production submit a summary report to the Council monthly. Referencing this report can help understand the trend impacting the pecan industry. The reports are published based on the American Pecan Council's crop year (September 1st - August 31st) which aligns with the pecan crop production cycle.

INDUSTRY REPORT PUBLICATION

All Pecan Industry Position Reports are published on a monthly basis. Once 80% of industry weight is received during a given reporting period, the American Pecan Council publishes the report. You can view the monthly position reports at <https://americanpecan.com/for-industry/analytics-data-market/>.

REVISION PROCESS

Data are revised the following month based on late reports or corrected data. Final figures are published in the annual summary in September of that crop year.
